

## WEEK 02: WIDE WORLD OF FISH – MESSAGE FROM HEADQUARTERS

Dear Explorers:

Welcome back explorers! You've done an excellent job completing your first assignments. No doubt, you are wondering where you will be going this week during your exploration. Well, you are going deep this week to take a look at some of the many creatures that God created under the sea.

As you explore, you will start to see that each and every one of them was created with a unique purpose in mind. It doesn't matter how strange or different it look, each creature was created by God's loving hands.

You will also start to see that many of these sea creatures we are discovering do the same things that people on land do. Could this be a coincidence? We will find out as you explore the wide world of fish that we call our home. Good luck exploring, and I'll be in touch with you again next week.

Sincerely yours,

Horatio Witherspoon,  
Director of Secret Operations  
GO FISH! Project
